 Lessons on fire

## Definition

*... groups of people who share a concern, a set of problems, or a passion about a topic, and who deepen their knowledge and expertise in this area by interacting on an ongoing basis, created under web technologies and working through the web (Wenger, 1998)*

## Essential components of VCoP

- A Domain → Wildfires
- A Community → European and Int. wildfire experts, policy makers, trainers, journalists, students, etc.
- A Practice → members are not only interested in the domain, but they are also practitioners

## Objectives - 2015

- Create a **site of reference** for the wildfire community
- Provide a site **actively managed by the wildfire community**
- **Provide tools** to easily search information on wildfires

## Organise information - *Communities*

Integrate a **database of experts** in a platform, organised by professional profile and topics - *Directory*

## Repository of documents - *Documents*

Stimulate **discussion** between European experts – lessons learned, good practices, experiences, successful / unsuccessful cases, etc. - *Discussions*

An open collaborative **dictionary** of fire terms - *Wikifire*

Access the **agenda** of the fire community and share new events on it - *Agenda*

Post a **job offer**, or apply to a posted offer – *Job Offer*

Access the content of the **Risk Platform** – *Risk Platform*

**net risk work**
